INFORMATION FOR PARENTS

The school is responsible for the supervision of all students at all times. Porters Patrol provide a safe environment for all guests on the mountain but are unable to provide any extra supervision for school trip students. Similarly, while the Porters Snow sports Instructors manage the whole group during their lesson, it is important for school staff or parents to continue to supervise the students, particularly if a student should leave the lesson for any reason.

Porters has an aerial lift (the Easy Rider chair lift), and students will be able to access this lift if they are given a full mountain lift pass. It is the responsibility of the group leader to decide whether students have the ability and maturity to ride the chair lift without adult supervision. Porters will not grant access to this lift to any student without authorization.

Porters also has a terrain park that is maintained by Porters and provides features for all levels of progression. The group leader will assess the competency of students to decide whether the terrain park is suitable for them.

Teachers or adults who are on the trip in a supervisory role are welcome to join Snow sports lessons with the children if they ski or ride at the same level as the students.
